## EXPERIENCE

---

### Freelance Web Developer

04/2025 – Present

- Collaborated with local businesses to enhance their online presence through web development using HTML, CSS, and JavaScript.
- Utilized Figma for design prototyping and client presentations during the development phase.
- Created and maintained web pages locally, deploying them on hosting platforms like Hostinger.

### Software Developer

02/2024 – Present

ABC-Amega - Buffalo, NY 🔗

- Implemented process improvements to cut manual workloads from spanning days down to hours by utilizing Angular, C# / .NET, and MSSQL
- Executed weekly product updates integrating user feedback to improve performance and user experience.
- Addressed support tickets promptly to eliminate obstacles for users in their daily operations.

### Software Developer Intern

01/2022 – 08/2022

Kore Wireless - Pittsford, NY 🔗

- Enhanced performance of client and internal applications by debugging and implementing new features using TypeScript and C#.
- Revamped project documentation to facilitate smoother onboarding for current and future developers.
- Engaged in daily collaboration with team members to troubleshoot issues and provide updates on ticket progress.
- Pioneered the initial architectural phases of an internal project overhaul using AWS cloud services.

## PROJECTS

---

### Workout Visualizer 🔗

01/2025 – Present

Visualization Tool For Workout Progress

- Data visualization tool that takes in data and displays workout progress graphs.
- Full Stack application that implements PostgreSQL, Spring Boot, Next.JS, and TypeScript.

### Discord Bot 🔗

01/2024 – Present

Leaderboard For Tracking The Funniest Users in a Guild

- Discord bot serving 15 users that gives voting functionality for ranking people in a server based off of their messages.
- Implemented with Node.js and SQLite3 on the Discord Developer Platform.
